

2026 - California Voluntary Carbon Market Disclosures Act

Tractor Supply Company is committed to providing transparent disclosures regarding our greenhouse gas (GHG) emissions and other relevant climate-related information. The following disclosures are made to comply with the California Voluntary Carbon Market Disclosure Act (AB 1305):

- Scope 1, 2 and 3 greenhouse gas (GHG) emissions are calculated using guidance found in the [Greenhouse Gas Protocol: A Corporate Accounting and Reporting Standard](#). While our GHG inventory has not been third-party verified, Tractor Supply Company uses expert advisors to prepare our inventory and advise us on best practices for reporting and improving our data management, calculation methodologies, and reporting systems.
- In mid-2024, the climate goals established in 2021 covering our operational footprint were withdrawn. The 2021 climate goals and any associated declarations made in past public reports are no longer valid or applicable.
- Tractor Supply Company's commitment letter to the Science Based Targets Initiative (SBTi), submitted in November 2023, has expired. Any related statements or declarations made in past public reports are no longer valid or applicable.
- Tractor Supply Company does not currently market, purchase, sell, or use voluntary carbon offsets in our decarbonization strategy.

This statement will be updated as required under AB 1305 on an annual basis.
